TP-NaSbBr4-01: 96-atom 2x2x2 supercell, mesh minimum +0.055 THz

TP-LiSbBr4-01: pending

PLACEHOLDER: TP-LiSbBr4-01 phonons not yet available
13/19 displacement runs finished (S5, Anish).
Rerun make_figures.py once 19/19 are done;
the panel then fills automatically.

Finite-displacement phonopy, PBE-D3 forces (QE 80 Ry). Generic path through zone-boundary points (not a symmetry-standard path). Predicted, 0 K harmonic.
